

Spectralink Receives a 2017 Unified Communications Product of the Year Award

84-Series Mobility Solution Recognized for Exceptional Innovation

BOULDER, Colo. April 13, 2017 — Spectralink Corporation (www.spectralink.com) announced today that TMC, a global, integrated media company, has named the Spectralink 84-Series Wi-Fi wireless solution as a recipient of a 2017 Unified Communications Product of the Year Award. These awards recognize the best and most innovative products and solutions that support unified communications (UC).

Share this: [@TMCnet](#) selects Spectralink's 84-Series as a #unifiedcommunications Product of the Year <http://unified-communications.tmcnet.com/topics/unified-communications/articles/430965-winners-the-2017-unified-communications-product-the-year.htm> #enterprisemobility

The Spectralink [84-Series](#), along with the company's portfolio of DECT wireless communication devices, are the only enterprise mobility solutions having native integration with [Microsoft® Skype for Business® environments](#), offering the dual power of mobility and UC. The 84-Series brings industry-specific applications enabled through specific UC features to a mobile platform, which is key in industries such as Healthcare, Retail, Manufacturing and Hospitality where employees are typically on the go instead of behind a desk. Combined with Skype for Business, the 84-Series Wi-Fi solution lets mobile employees stay productive and connected to their workflows from anywhere in their workplaces.

"The 84-Series mobile solution was built specifically to enable seamless workforce mobility in enterprise environments where workflows are becoming increasingly mobile," said Ashish Sharma, CMO of Spectralink. "We are honored to be recognized for our enterprise mobility innovation and interoperability with Skype for Business. This is our second product to be recognized by TMC for a 2017 Product of the Year Award, with our PIVOT:SC also achieving this distinction for [Internet Telephony.](#)"

"It gives me great pleasure to honor Spectralink as a 2017 recipient of TMC's Unified Communications Product of the Year Award for their innovative product, the 84-Series," said Rich Tehrani, CEO, TMC. "Our judges were very impressed with the ingenuity and excellence displayed by Spectralink in their groundbreaking work on the 84-Series."

Winners of the 2017 Unified Communications Product of the Year Award will be announced online and highlighted in *INTERNET TELEPHONY* magazine.

About Spectralink Corporation

Spectralink leads the enterprise mobility market with industry's most deployed mobility solution portfolio optimized for mission critical healthcare, retail, manufacturing and hospitality applications. As the enterprises transition to mobile workflows, Spectralink is at the forefront of the industry transformation through its innovative end-to-end mobility portfolio. Designed for challenging RF environments, our mobile solutions enable enterprises to streamline their workflows and deliver a positive customer experience. To protect our customers' investments in UC platforms, we offer the best interoperability in the industry with the leading call control platforms. Since 1990, Spectralink has deployed millions of mobile devices worldwide – providing enterprises with the industry's most reliable, high quality and secure mobility solutions.
